## Description:

This college-prep physics course is designed for the student who has completed algebra and has had an introduction to the definitions of sine, cosine, and tangent. It provides a detailed introduction to the methods and concepts of general physics. Heavily emphasizing vector analysis, this text is ideal preparation for a university-level physics course. It provides the student with a strong background in one-dimensional and two-dimensional motion, Newton's laws and their application, gravity, work and energy, momentum, periodic motion, waves, optics, electrostatics, electrodynamics, electrical circuits, and magnetism. Recommended in Our Lady of Victory H.S. Physics Author: Wile Grades: 10 and up Format: 602 pages, hardcover Publisher: Apologia Educational Ministries, Inc ISBN:

1-932012-42-7
